In Search Of...

No two people breathe the same breath. The mixture of gasses from breath to breath nearly always varies slightly. I can't tell you that the air in your lungs is 70% nitrogen, 20% oxygen, and 10% carbon dioxide, hydrogen, and other various trace gasses without making myself somewhat of a liar. In the same way, I can't tell you of the blood in your veins, the thoughts in your mind, the dreams you hope to obtain. I can't tell you what it means to search. I can't lump you 1,800 CHSers into a single school desk, scribble a formula on the blackboard and proclaim, "Here's your life! Take it or leave it!" All I have to do is take a stroll down these renovated halls to see that. We are too many individuals to fool with some false doctrine, and I like to imagine that I would be the last to tell you what to think. That's your job. That's what puts us where we are--the closest thing to a throbbing mass of humanity as I've ever seen. And so we continue, In Search Of...

lori michele isaac van deman

As the roar of bulldozers and jackhammers faded and the dust of renovation settled, ACHS found itself with a structure far superior to the previous one. Moving into the new school proved a tedious task. Teachers and staff put in many hours of hard work preparing Columbine for the opening day. History teacher Mrs. Herring expressed her anxiety that the school would not be ready in time for the students when she stated, "We were worried about the students having to come back to a filthy school." For two weeks teachers and custodians spent seven hours a day cleaning, assembling desks, and moving boxes, shelves and books. Language arts teacher Mrs. Lucas stated, "It was the hardest work I've done in years." Said history teacher Mr. Herring, "It was kind of tedious work, but it wasn't too bad because we all had a sense of humor." During the move two...

FACE
for CHS

New Building Bonuses:

- 230,000 square feet
- 1,950 lockers
- improved athletic facilities
- largest weight room in Jefferson County
- doors and windows in classrooms
- 461 student parking places

At an assembly held on the first day of classes, student Body President Matt Lauster and Principal Don Mitchell prepare to officially open the new Columbine High School by cutting the ribbon. Following the ceremony, Senate leaders led the student body into its sparkling new school. photo by matt slater

The renovations moved the main entrance of CHS to the south. The east-facing doors that once fronted the building now serve as the faculty entrance.

photo by lori van deman

Seniors Marcie Andrews, Annee Sorensen and Ashley Copen rest on one of the new built-in benches in the commons area, located on the lower level.

photo by katie brown

Columbine's attractive new staircase guides students from the commons to the upstairs academic areas. This was one of the predominant changes.

Students stroll out through the entryway of the new building right after a day of hard academic labor at CHS.

Over the summer, math teachers Mr. Barrons and Ms. Sadler assist in preparing the classrooms for opening day, August 28.
photo by matt stover

...teachers sustained injuries. Language Arts Teacher Mrs. Kelly bruised her foot while moving boxes and science teacher Mr. Sneddon acquired tendon damage in his arm from moving cabinets.

Another important stage in the occupation of the new school was the Leadership Lock-in held August 10 through August 11. Selected students who attended the workshop learned how to have a positive impact on their school and community by fundraising, becoming involved and solving problems in a creative manner. The lock-in featured recreational games, team building, and a motivational speaker. Mr. Chester, the motivational speaker, "related to all of us in a positive way and kept us enthused," said Senior Jen Temple.

The students and community embraced the new Columbine with great enthusiasm. The transition from old to new, although difficult at times, proved to be worthwhile. An Open-House, held September 25, brought the approval of CHS... (cont. on page 8...)

Upon receiving a standing ovation, Mr. Andres leads the concert choir off stage after its Open-House assembly performance.

a new FACE for CHS

Parents and alumni who commented, "Phenomenal!" "Fabulous. I wish I could be in high school again," and "Spectacular view!" Students reacted positively, as well. Senior Julie Haas exclaimed, "It's beautiful--especially when the sun comes over the school in the morning." Freshman Kelly Burgesser enjoyed the "big and modern building." However, because of the size and new layout of the school, some students had a difficult time finding their way around. For instance, Junior Missy Mindell complained, "It took me a week to finally know where to go!" Student Body President Matt Lausten added, "It doesn't look like Columbine yet. We need to put some Rebel Pride into it."

Did you know that...

- Each student now has his/her own locker
- We have two new softball fields and four new tennis courts
- Our school is now the largest school in Jefferson County
- The total cost of building the new school was 15.1 million dollars
- The construction took 15 months
- Both the auditorium and the cafeteria seat 100 more people

In Search Of..

....A Good Time

What are we all supposed to be doing at this point in our lives? Sure, we're going to school and trying to keep our heads above water while we hunt for knowledge. We are preparing to separate ourselves from the years of security we've had while attending school and begin a personal quest in a world where there are often some uncertainties that can be a little let's say, unsettling. In the meantime while we break apart from our life of education, which is mapped out for the most part, we step into the realm of our existence where we have the opportunity to explore so at some point we can say that we've actually experienced

life and survived. Some of us take advantage of our spare time and just slack off, mindlessly sprawling out on various items of furniture or possibly the first place we just happen to drop. We believe if we sow a leisurely life, we will reap the fruits of relaxation. Meanwhile the rest of us engage in more physically and mentally demanding activities, such as maintaining a job (making filthy lucre, bread, shekels, gelt, stumpy deaga money) or joyously recreating (amusing ourselves to the best of our ability). Of course, we don't venture through our time of leisure all alone. We and our friends must take turns acting as tour guides of sorts. Our friends are sometimes the ones who say "Have you been here, seen this done that, etc." We then listen to their advice and, whether it's good or bad, they have helped us to discover an area of life which we either like or dislike. We are each in search of the life which suits us best.

No Fair Weather

The shared experiences of high school forge important and meaningful friendships that have the potential to last a lifetime.

Sophomore Tom Kostelecky stated "Friends are people you can talk to and have lots of fun with" while Junior Andrea Voich recognized "Friends are people who love you for your stupid sides."

When times are rough, Junior Kerri Howard declared, "Friends will always be there to listen and understand." Freshman

Kerr Weaver noted "When your day just isn't going right, a friend's smile will always brighten your day." Senior Eric Jackson commented "Friends are for sharing experiences with some good some bad. Friends are people who you can do things with now and in a couple of years look back and laugh."

Friends play an important role in our lives. After all, that's what friends are for.

Heather Harrison

At the end of the year, friends are the ones who have shared the most experiences and shared the most laughs. They are the ones who have gathered around a table, making memories that will last a lifetime. They are the ones who will be there for you when you need them most.

These friends celebrate Sorrento's 16th birthday with a delicious mix of cake and ice cream.

car- culture

Whether it's four-wheeling or mountain biking, students at Columbine enjoyed the challenge of the open road.

Mountain biking created excitement and a physical challenge for many students. Senior Todd Bergman expressed, "I like the thrill of the speed and the vigorous climb." Senior Matt McCormick added, "It's an individual sport, finding the line between being in or out of control."

Senior Troy Tomasko who

enjoyed four-wheeling explained "I do it to prove what my car can do and for the constant seeking of speed and power." Senior Tony Everhart commented "While driving in the mountains there can be some really incredible views."

While these may seem like inexpensive sports, the cost can easily reach into the thousands. Senior Dax Burgos stated, "I want a more powerful engine that will cost around \$2,000."

sarah howe

IMPOS

With the busy schedule of school, work and extra curricular activities, why do Columbian students choose to spend the 15 after school hours working? For the money, right? Well not necessarily. It seemed that many CHS students worked for other reasons.

When asked why she chose to get a job at Citi Foods, Junior Jarcie Ryant replied "I work because it gets me out of the house and gives me an excuse to put off my homework."

Other students worked because they enjoyed their jobs. Junior Jenna Castle, who worked at McDonald's, stated "I have a lot of fun with the people I work with," and Freshman Sumner Hoppe babysat because she "loves kids."

Regardless of the reasons why people worked, money was definitely an issue. Junior Tara Williams admitted "There is no reason to work except for the money."

stephanie hamner

Senior Marlene Mendrala happily holds up a poster while working at Spencer's. It's a gag gift that is the main attraction of the Northwest Plaza, which has an incredible variety of stores, proves to be a popular work place for many Columbian students in search of money, experience and enjoyment.

Throughout this school year in a lively show of Columbine pride, many students grabbed their pals and headed for the stadium.

Some Rebels attended sporting events to check out the opposite sex. Senior Michael Francks revealed "I like to go to all the games because I love to look at the women from other schools."

Seniors Jen Temple and Kristi Tiede noted, "We love to go to swim meets because we can

look at all those gorgeous guys in speedos."

Other students went to games just to have a fun time. Junior cheerleader Robin Szekeres stated "I go to baseball games because it's the only sport we don't have to cheer for."

Attending sporting events was a common pastime for Rebels as Sophomore Tyson Liverant said, "Everybody gets excited, and that's where Columbine's spirit is."

Jerry Pernicka

Campbell's Kids...

CHS students fired up the Covens hoping to cook their way into the future.

Columbine's Life Management class had many future chefs, such as Freshman Jeff Edwards who plans on "hopefully being a chef" and Freshman Nick Williams who wants "to cook at a restaurant."

Columbine chefs also displayed their talent at home, such as Junior Katie Wetherbet who commented "I like to cook at home because I'm the only one who knows what's in

the secret sauce." For many parents, it's not what their kids cook that makes them happy; it's just the fact that they're cooking. Freshman Layne Newton claimed "My parents like my food because then they don't have to cook."

Beyond their home-cooked meals and the classroom stoves, students also made meals for the public. Junior Allison Mick stated, "My job at Pizza Hut is more satisfying when the customers like my food."

—Mike Zachem

Games

Students of all grades enjoyed playing games, even when forced to be "it" or to use the silver Monopoly tokens instead of the shoe.

Many students liked to play cards or board games. Like Freshman Luke Kwemeland who said, "I play chess."

Junior Bre Ann Starkey, commenting on a favorite pastime, said, "We all go shoot pool at night" and Junior Amanda Johnson remarked "Ping pong can be fun."

Some students preferred to engage in outdoor activities,

such as Junior Brooke Lerung who played trampolene games. She remarked, "My friends and I play cat and mouse."

Sophomores Stephanie Matthews and Meagan Stirling have found a unique game of their own. They stated "We dance and sing at the Rockies games to make money that people put in our cups."

Playing a game with friends is lots of fun and a great way to relieve stress, as long as no one has to be "it."

andrea duff

Happy By Law

According to the Constitution we all have the right to the pursuit of happiness, and this rings true even here at Columbine.

Junior Mike Zakheim found happiness in "waking up at 6:30 in the morning and realizing it's Saturday." Senior Jessica Kirk commented, "Splashing in puddles with no shoes on in the rain makes me happy."

Others found happiness in the thrill of competition. Senior Anne Shome discovered many things that made her happy such as, "riding horses

and winning volleyball games." For Junior Jerry Pernicka, a happy moment is, "After I finish my race at a swim meet I look up and see that everyone else is still swimming." Senior John Taggart found joy in "cassette and volleyball games," while Senior Emily Zaynard found happiness in "Lard Rowie and M&M's." Sophomore Beinda Kimball summed up her happiness as simply "life and love."

Sarah Hume

Eagerly awaiting the opening performance of the Monkees at the favorite 60's rock group, juniors Kim Spaulding, Elizabeth Hyde and Lisa Winter find their seats before the start of Kool Concert '95 at Mile High Stadium. This event proved to be a popular attraction for many Columbine students.

Let's Get Out There!

Some of the funniest and most unexpected experiences occur in the outdoors.

Junior Kira Sebesta recalled, "Once while sledding, I let it out and the sled ran over my foot. Later I found out that I had fractured it."

The outdoors was not friendly to Sophomore Noah Wells either. He agreed, "I was trying to cross a river while carrying a camera. So when I slipped on a rock and fell, one hand was holding the camera

out of the water while the other hand searched for a branch to pull myself up by."

Danger was present as Senior Ryan Goodwin exclaimed, "Seniors Jeff Saes, Jacob Schwiegerath, Jason Jackson and I were climbing a tower. Finally Saes said 'Guys, I don't think I can climb any higher and he fell about twenty feet.'"

Apparently, adventure finds its place in the outdoors.

with meyschroeder

Get A Watch!

Routine routine school practice game or work homework before school.

Junior Elizabeth Hyde told us she expressed her displeasure of busy schedules, and agreed that sports, work, school and other extracurricular activities left teens with little time to spare.

Junior Matt Staver indirectly agreed and exclaimed, "Catch me later I have to get to class."

Our generation was known for either working too much or much too much. Junior Aranda Johnson agreed and

commented "When I work all day, I end up doing homework all night."

And with most CHS students, their day had only begun at 2:30 when school let out. "After school I have cross country, then either soccer practice or work, and sometimes both," explained Junior Darcie Ryant. "Then when I get home I have to do homework."

And what usually got sacrificed? As Freshman Monica Dubois so eloquently put it, "sleep." *elisa glimore*

After finding a quiet place to sit and rest, Senior Roger Green makes time for his body with a delicious sandwich run. Thick Puer. Finding the time to eat became a great obstacle to overcome for many students who suffer through a torturous class load, hectic work schedule, or taxing athletic obligations. *photo by jess kirk*

Like many students with busy schedules, senior Jennifer H. uses the Commons as a place to catch up on the sleep she missed the night before.

Photo by Matt Steiner

rebellion in Excess

Whether it's art or desecration, decorating one's body (or car) became a common sight in the nineties.

For many, tattoos have personal meaning and make people feel unique. Senior Anne Shoma reflected "Tattoos are distinctive of our generation, before only bikers got Harley Davidson tattoos on their arms and now even soccer players do it."

What of the body being decorated belongs to a car. Students also personalized their cars with hand-painted

caricatures and patterns. On his car Senior Brian Mears detailed "the dots of my crazy side, Calvin and Hobbes, then came philosophical Winnie-the Pooh and then the environmental Lorax."

Finally, students found new and interesting ways to dress up their tresses whether it was using accessories or trying a different color every week. Senior Cortnae Morris explained her hair dyeing fetish by saying, "I just like different styles. I want to stand out."

angela rosenthal

Isn't it August yet?

Planning for the upcoming year and studying in paradise was on the summer agenda for many Rebels.

Organizations such as Senate, Peer Counseling, Yearbook and the Cheer squads attended retreats or camps to get acquainted. Senior Peer Counselor Marc Summers explained his camp, "At the ropes course, the peer counselors learned that trust is the bond that holds people together. We had to trust each other to get us through difficult and challenging situations."

Referring to Yearbook camp Editor Matthew Howell stated "We went to camp to learn the different ways to make our yearbook better and to avoid making mistakes."

Others were able to study in Alawa for two weeks. This may seem like paradise, but Junior Sarah Konecny admitted "The Biology trip was strenuous and we were up past midnight each night doing homework. I learned more in those two weeks than in a whole year."

ellen wamser

Junior Nick Cutler rushes to the dining hall at Frontier Ranch, a Young Life Camp in Buena Vista, Colorado. Even though summer is supposed to be a time of leisure, many students had trouble squeezing in all of the activities and adventures they had planned to enjoy during their months off.

FOR KIDS

Welcome to 1996, where
 fit is fashion and flab is
 drab. This year, Columbine
 students found many new and
 exciting ways of getting
 exercise while having fun.

Many students, including
 Sophomore Belinda Kimball,
 played school sports to stay in
 shape. "I play softball," she
 stated "because it makes me
 buff." Seniors Melissa Kallen
 and Steve Cope also
 participated in sports. Both
 were captains of Columbine's

cross country team.

Some Rebels opted for less
 conservative fitness routines.
 Freshman Justin Carlson
 "watched Richard Simmons
 workout videos," while Junior
 Justin Welch "stood knee deep
 in cold water while fishing."

Staying fit was hard work for
 many. However Juniors Amy
 Garcia and Dani Scoggins
 found that maintaining
 optimum health was as easy as
 "eating Wheaties."

caley horan

Art Fetish

Those who took art classes found grace, but for people who pursued outside artistic goals, self-fulfillment found them.

No matter what art form people tried, it resulted in personal satisfaction. Roger Green, guitarist of the band Idle Mind, stated, "In music I can express thoughts that I couldn't any other way."

People can learn a lot from art. Senior Chris Gaudin explained what martial arts taught him. "I've gained self-

confidence, discipline and coordination." Ballet dancer Junior Amanda Maher supported this by saying, "Dancing taught me self-control and how to control my movements."

If art takes this much effort, would artists recommend it? Dana Wiggins explained why she draws. "I like it because it expresses who I am." Painter Jenny Anderson added, "Pursue art. Try as many forms as possible because in the end it's worth it."

leigh brogue

In her ceramics class, junior Kelly Sozin takes great care in scooping the clay out of her container in order to hollow it out. Ceramics, one of many art classes offered at Columbian, provides students with the opportunity to express themselves in a creative manner and to produce their own unique works of art.

East Side. West Side.

Students at Columbine
couldn't wait to spend their
weekends at the hottest places.

Many took advantage of what
the cities offered, like Junior
Harry Kramsvoge who enjoyed
"going up to Boulder to cliff
dive." Dancing at clubs like
the Marques in Boulder was
also popular according to
sophomore Kody Morris.

Other students headed to
downtown Denver to relax over
a cup of coffee in coffee shops
like Par 4 on the Platte or the

Market. Junior Jessica Boone
preferred. "Starbucks for their
trappachino swirls."

Some students opted for
outdoor activities, like
sophomore Katie Kellogg who
spent her sunny weekends
"scuba diving" at her local pool.
For Senior Ted Black weekend
enjoyment was "rock climbing
and playing bingo" with his
parents.

Wherever students spent
their weekends, they had fun.

emma murray

W, My Pancreas...

Many LHS students chose to escape the boredom of everyday activities by adding some adventure to their lives.

For some, adventure meant to be regularly engaged in excitement while others preferred an occasional thrill. Freshman Sara Arbogast recalled "I went parasailing over the Atlantic Ocean and free-fall led 600 feet." For Sophomore Colleen Coihert, an exciting adventure included "repealing off the edge of a cliff and experiencing the awesome

feeling of near death." Sophomore Eric Armstrong remembered when he "went car surfing" on his friend's Pontiac.

Skateparks provided thrills for Junior Ryan Davis who engaged in "extreme rollerblading" with friends where they did "tricks on rails and half-pipes." Junior David Peterson enjoyed going to "Thrill seekers because when you're hanging by two fingers twenty feet above a cement floor, there's just a small rush."

Shirley Rappert

Senior Jeff Sales shows his skills as he attempts and contorts himself in an effort to pass the hockey stick to his nearby companions. A popular diversion between classes, hockey involves coordination, a good deal of luck, and a lot of acrobatics. While you can perfect the art of hockey, photo by David Rappert

Senior Ted Black, with only his skills and a rope to prevent an untimely landing, considers his rock climb as he courageously scales a rock formation.

Hair, in-line with the homecoming love, junior Jennifer Castle brings the natural look of the beehive hairstyle to the H.S.
photo by Jessica Kirk

Senior Ryan Passio waits on the sideline to go into a season touchback game. The team's grueling practices paid off with the Homecoming victory.
photo by David Knapp

In a bizarre parody of the norm, senior Andy Leach and Lon van Deman backed back in the days of togas for their homecoming dances.
photo by Jessica Kirk

This year's Homecoming proved to be successful as Rebels showed their spirit and pride.

On Monday students observed strange hair styles on Crazy Hair Day, then enveloped themselves in Greek togas for Tuesday's Toga Day. Platform shoes and neon colors were the mode for Disco Day, Wednesday. Responding to Disco Day, Junior Annette Duncan exclaimed "I liked the chest hair people grew on themselves!" Clones were seen roaming the halls on Thursday for Twin Day and the week culminated on Friday when each class wore its allotted colors. Freshman Aaron Warren liked the week because "people could wear something crazy without getting made fun of."

Though the Homecoming Pep assembly takes place every year, this year's assembly was different. Students... (cont. on next page)

With identical grins, Belinda K. Inghall and Freshman Amber Burgess show their friendship and spirit on Tuesday's Twin Day. photo by Jessica Kirk

Ready for the expenses of the evening ahead, these guys coughed up the dough that will supply the dance tickets, and any other Homecoming necessities. photo courtesy of Heather Husbund

Homecoming

...the PR...

showed much more pride and spirit than in past years. Senior Luke Klepper, co-emcee of the assembly along with Senior Nate Brown, commented, "This year's assembly was the best in years due to the participation and enthusiasm of the crowd." The assembly contained a slide show with pictures of students from Columbine's early years. Junior Rachel Shakowski found that "it was the best part because there were some crazy looking people to laugh at." Football coach and teacher Ivory Moore stressed "The Homecoming assembly sets

the stage for all of the Homecoming festivities."

The Rebel football team proved itself by winning its first Homecoming game in three years. The Highlands Ranch Falcons fell victim to the Rebels by a score of 14 to 13. The Rebels were led by Senior Mike Mauser who scored both on the Rebels' touchdowns and Senior Erik Boykin who played great offense and had an interception on defense. Boykin expressed, "It felt great to win because those are the games you really want."

Remember When...

Some CHS students worried throughout the game such as Freshman Lori Hinchey who stated "I was happy and relieved that we didn't lose again."

Because of the victory, students were in good spirits when they donned their suits and dresses for the annual Homecoming dance. The commons area came alive with extravagant decorations matching the theme, "Total Eclipse of the Heart." The atmosphere created a romantic evening for the students who attended. Many felt the dance went well and was a success. "It was my last Homecoming."

Senior Jeff Sales stated "Everything turned out great." Sophomore Angela Edgerton agreed stating "The music selection was perfect for dancing." Others met minor obstacles such as Sophomore Cassidy Stewart who recalled "My contact fell in my rice at dinner and my date found it about five minutes later." Junior Mike Penny added "Picking up my date, I backed into a mailbox and scratched my parents' car."

...Ourselves

Look around. What do you see? Maybe a variety of different people crowded in the halls or sitting in a noisy classroom. If everyone were the same, our lives would be dull and uninteresting. There would not be the athletes training for or defending the school's name, or the musician strolling to class whistling the melody of his/her favorite song. This variety provides us with a chance to define our individuality as a class and on our own. The Freshmen, carefree and a bit timid, are exploring what they want to accomplish in the next four years, making new friends and experiencing their new environment. For some, the changes they will experience will impact them forever. Whether it be their first boyfriend/girlfriend, first party or first defeat in an event, these moments are milestones. The Sophomores are in a league of their own. They have completed their first year of high school and are beginning to face the challenges of growing up. For some, the burden of homework has become heavier, the jangling of car keys has become louder and the extra hours of having a job become a harsh reality. Last, but not least, the Juniors or the "Upperclassmen" have been presented with new choices and decisions. More classes have been offered, some challenging (chemistry - some a bit easier (an extra hour off). Signing up for the ACT's and SAT's takes this class one step further to graduating, going to college and planning for the future. The problem of juggling the busy schedules with the hours of homework, jobs and extra-curricular activities seems endless. Yet, at the same time, our individuality binds us together. We are all pieces of a large puzzle which make up Columbine High School. Without each individual, the puzzle would not be complete.

ellen mary warnser

Freshmen

The freshman year is a year of exploration, learning to see the world from a step above the ground-high eye. It is this year where we hopefully learn how to walk in the rain without being an obstruction, how to write a high school essay, and how to eat lunch in less than half an hour. If we're lucky, we learn how to burn a ride to school and to lunch from an upper classman. But most importantly, we gain maturity, which we will continue to gain through the rest of our lives: from high school to college, to work through parenthood and old age and on down the line. This is the year where we, the Freshmen, start to pull together as the

What is the biggest change you experienced between junior high and high school?

No one way has in high school. **Justin Gorton**

In high school, you have the freedom to walk the halls after lunch. **John Skeels**

In high school, you don't find all of the cliques like in junior high and you have a lot more freedom such as the open campus.

Lesley Pech & Melissa Henne

In junior high, we didn't have tons of big people trying to run you down. **Zach Cartaya**

In high school there are sports, and classes have different grade levels mixed in.

Heidi Manger

Off hours. **Lucas Johnson**

Guys actually shave their faces. **Breanna Sal & Allison Brock**

GUYS!

Leslie Barnes

After school you can't go up to Little Caesars.

Nathan Guest

It's too tough. I need a nap.
Matt Hardy
Jerry Pernicka

What was your biggest fear about high school?

Falling headlong down the stairs

Not graduating

Big scary people!

The cafeteria food

Getting lost and pushed around.

NO MIEDO!

Getting killed by the Varsity football team during scrimmage.

The 10 Best Things About Being a Fresh

10. No nasty notes from neighbors in parking lot
9. Free swirly fries courtesy of Seniors)
8. Don't have to mourn old school, having never been there
7. 2-way highways. U-turns allowed
6. The joys of Capriets and Montagues.
5. The vast possibilities of fast food as opposed to *la lanchateria*
4. Introduction to the masses.
3. Ready girls? Hair, make-up, nails, make-up, hair.
2. Boys: the possibility of dating an older woman... orrrrr maybe not
1. Learn your American Government well; it'll come in handy for senior pranks.

Although the dictionary definition of "sophomore" is "immature and overconfident" our class of '98 was a far cry from either. Throughout trials of carrying to drive Biology and American Literature and History Sophomores kept their class spirits high and made their presence known at our school. Sophomores are at home between stage in high school; they are underclassmen, yet they are nearly as knowledgeable as they shall ever be about the workings of their atmosphere. They are the

The 10 Best Things About Being a "Sophomore"

10. Learning the true meaning of "sophomore" in Language Arts.
 9. You can drown those "too cool" seniors who drove you around last year.
 8. A small step toward equality (mind you, a very, VERY small step)
 7. You're the top o' the Bottom.
 6. The possibility of being the Bottom o' the Top (NEXT year)
 5. Full-time slavery.
 4. Learning that fruit is really a vegetable's ovary.
 3. You can be legally charged with Venicular Homicide.
 2. That motherly sensation of naming that baby pig.
 1. "Nothing."

Junior is the year and you're standing at the top of the heap. We Juniors are trying to learn what the rest of the world is going to expect from us. We took college prep courses like AP English. We work towards a future that, for now, is just out of reach. But this third year of secondary is essential for making choices with greater flexibility. In class schedules, we begin to shape our own courses, stretching out toward what we deem important and essential. And as we go, we know we are the

What was your most embarrassing moment?

"I fell asleep in History and started snoring."
Mark Reynolds

"When I was a freshman in track I put down my warm up pants and realized I forgot my shorts."
Matt Staver

"One day in elementary school I stood up and sang "Born to be Wild". Then I realized it was silent reading. I was so embarrassed."
Jennica Castle

"I fell down the stairs head first in the auditorium. Everyone laughed and my face turned bright red."
-Becky Chandler

"In the old school I slipped and hit my head on the trophy case. All the trophies shook and a bunch of football players stood there laughing at me. I wanted to cry because my head hurt really bad."
Robyn Szekeres

"At the State soccer game, when I thought we won and went running out onto the soccer field cheering and screaming in front of everybody."

What is your Favorite Song?

"Animal by Fear cam because it's the only dare"

Mika Zakheim

"Piggy by Nine Inch Nails because it gives me hope when I have a problem"

Luci Shoup

"The Divorce Song by Liz Phair because it talks about men's insecurities and how fragile they are. Plus it's got a good beat and you can dance to it"

Lough Brodie

"In the Jungle because it is wild and crazy"

Hilary Kramsvoge

"Brown Eyed Girl because it is an oldie but a goodie"

Cody Farmer

"I Got Me Wrong by Aice In Chains because I can listen to it no matter what kind of mood I'm in"

What is your worst driving experience?

"On a first date I spun out on a wet road, I hit the curb and cracked my axle. She never went out with me again."

-Rich Blaskovich

"Before I was sixteen I was steering for my sister and I drove right into a bush."

-Whitney Schroeder

"After I just got my permit, I got rear-ended."

-Rhiannon Erbert

"I was pulled over two times in five minutes."

-Chris Buckner

"I got my rear wheel stuck in an open manhole while driving off-road."

-Brianna Martray

"I hit a stop sign the very first time I drove; I mistook the gas pedal for the brake."

-Jeff Veesaert

"Before a red light I slammed on my brakes and slid into the middle of the intersection."

-Danielle Murillo

"My sister crashed into the back of a portable cement mixer. We had to pay for the damage on the truck and for a new mixer."

-Sarah Gorshing

"I was driving, and I rear-ended some guy and my airbag full of Jiffy-Pop Popcorn came out."

What is your Favorite word and Why?

"Buddha, because I like round stomachs!"

-Jason Crooks

"Shushinova, because I like to do it."

-Sarah Tomicich

"Favorite, because I can't say it the correct way. What is "correct" anyway?

-Megan Wernig

"Anaranjado, because it is my favorite color."

-Jennica Castle

"Bouillabaisse, because it tastes good!"

-Stephanie Franz

"Pez, because they come in cool dispensers."

-Cooper Peters

"Chunk, because it is from my favorite movie, The Goonies."

-Chris Ford
